

Submission Checklist

Check off all steps and submit a signed copy with your report

- ☐ You made sure that all required sections are covered and are of appropriate length (see length guidelines)
- ☐ You used the provided template and did not change the style guidelines regarding spacing, font sizes
- ☐ You checked that all graphics and tables fit within the margins, that they are of sufficiently high resolution and all text is clearly readable
- ☐ Check the paper for precision and clarity: can you say things more simply? Can you cut long sentences short or divide them? Are you using all terminology consistently? Are all abbreviations introduced on first use?
- ☐ You made sure that all references are complete (including at least author, year, title, journal or conference information, URL where needed)
- ☐ Each of you spend to proof-read and edit the ENTIRE final paper at least twice, ensure that it flows logically and each section is connected to the prior sections
- ☐ With your submission, each of you writes and submits a short paragraph about your contribution to the team project (including the actual implementation, testing, and the writing of the paper, listing which sections you lead, etc.)
